Chubu Electric Power Co., Inc.	9502	Annual	25-Jun-26	Shareholder	7	For	While inclusion of the quota in the articles of association may entail some short-term implementation challenges, improved diversity will contribute to the quality of the board over the medium- and long-term.
Chubu Electric Power Co., Inc.	9502	Annual	25-Jun-26	Shareholder	8	Against	The proposal is not in the shareholders' interest.
Chubu Electric Power Co., Inc.	9502	Annual	25-Jun-26	Shareholder	9	For	Expanding renewable energy and related infrastructure in line with recognized targets would support the company's transition strategy and help manage material physical and transition climate risks, while integrating environmental and human rights considerations into long-term value creation.
Chubu Electric Power Co., Inc.	9502	Annual	25-Jun-26	Shareholder	10	Against	Embedding specific secondment and rehiring bans in the articles is overly prescriptive and would unduly constrain the board's discretion over employment matters and relations with relevant authorities.

Chubu Electric Power Co., Inc.	9502	Annual	25-Jun-26	Shareholder	12	Against	While security and waste management challenges exist, nuclear power is recognized in various IEA scenarios as a key contributor to a low-carbon energy mix and plays an important role in managing associated physical and transition risks.

Concerns about the company's practices or policies prevent support for the proposal. The nominee is held accountable in light of our concerns about the company's ROE performance. The board is not sufficiently independent as per our voting policy for controlled companies (less than 50% independent and fewer than 2 independent outside directors). The gender diversity of the board is below our guidelines (less than 20% of women). The nominee is a non-independent member of the Nominating committee which is not composed in majority of independent directors.

Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Management	1.13	Against	Concerns about the company's practices or policies prevent support for the proposal.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	2	Against	The proposal is overly prescriptive and would pre-empt board and regulatory judgment on nuclear accident liabilities, funding and cost recovery; these matters are better handled within the company's risk management framework than through a fixed articles amendment.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	3	Against	While there are challenges and risks related to the decommissioning of the Fukushima Daiichi Plant, the proposed action is best left to the board and relevant regulatory authorities.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	4	Against	While security and waste management challenges exist, nuclear power is recognized in various IEA scenarios as a key contributor to a low-carbon energy mix and plays an important role in managing associated physical and transition risks.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	5	Against	While transparency on nuclear plant safety inspections is a legitimate concern, the proposed article is overly prescriptive; the scope and form of such disclosures are best determined by management, the board, and the relevant regulatory authorities.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	6	Against	While this is an important issue, the proposal is overly prescriptive. Absent clear evidence to the contrary, decisions regarding the desirability of the current agreements with Electruc Power Development Co. are best left to the judgment of company management and the board.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	7	For	This proposal addresses a material worker health and safety issue at nuclear facilities and would strengthen accountability for managing radiation-related risks to employees engaged in recovery, decommissioning and operations.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	8	Against	While Amundi supports the development and deployment of renewable energy to manage and mitigate climate transition risks, this proposal is overly prescriptive in mandating specific investment amounts, staffing ratios, and operational directives for a subsidiary, which are best left to the judgment of the board and management.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	9	For	Individual disclosure of remuneration paid to directors and executive officers would enhance transparency and allow shareholders to more fully assess the alignment between pay and performance.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	10	Against	The proposal is overly prescriptive and would unduly constrain the board's and management's discretion over pricing, procurement and efficiency measures, which are best assessed in light of market conditions, supply reliability and long-term shareholder value.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	11	Against	Although expanding renewable energy is critical to the energy transition, the proposal is covering several demands that differ in nature, some of which are overly prescriptive.
Tokyo Electric Power Co. Holdings, Inc.	9501	Annual	25-Jun-26	Shareholder	12	Against	The proposal is not in the shareholders' interest.

Meiko Trans Co., Ltd.	9357	Annual	26-Jun-26	Shareholder	4	For	The shareholder proposal calls for the company to conduct a share buyback of up to 4.1 billion yen within one year. While the company’s equity ratio is high at 77%, its ROE stands at a mere 4.4% and its PBR is only 0.5 times. Although share buybacks appear to be a necessary and effective measure for improving capital efficiency, the buyback for the fiscal year ending March 2026 amounted to only 870 million yen. If this proposal is approved, total shareholder returns—combined with the 3 billion yen dividend—will amount to 7.1 billion yen, exceeding the projected net income of 6 billion yen for the fiscal year ending March 2027. However, since the company holds approximately 68 billion yen in cash, deposits, and securities and there are no financial concerns, I support this proposal.
Meiko Trans Co., Ltd.	9357	Annual	26-Jun-26	Shareholder	5	Against	The proposal is not in the shareholders' interest
Meiko Trans Co., Ltd.	9357	Annual	26-Jun-26	Shareholder	6	Against	Currently, stock-based compensation is approved at an annual limit of 50 million yen for up to 80,000 shares. This shareholder proposal seeks to expand that limit to 200 million yen for up to 100,000 shares. We oppose a fourfold increase in compensation while the compensation structure—including the specific KPIs and evaluation criteria—remains unclear (left entirely to management).
